

Jefferson County Farm Technology Days – Community Grants
Melissa Gerner – Jefferson County Farm Tech Executive Secretary
Email: Jeffcoftd2019@gmail.com Phone: (920) 723-8660

Grant Objective:

To solicit proposals for special project grants from County FFA departments, County 4-H organizations, and other county agricultural organizations.

Grant Requirement:

The grant project proposed MUST benefit the following beneficiaries: youth in Jefferson County; and/or Agriculture in Jefferson County. Ideally, these grant projects should align with the overall mission of the Jefferson County Farm Technology Days Board: Celebrating Agriculture and Generations of Farm Pride.

Grant Deadline:

Monday, December 2nd, 2019

General Information:

The grant project should be one that regular funding sources of the organization applying for the grant are not adequate to fully support the project. The grant request itself can be for full funding of a smaller project, for specific items needed to fulfill your organization’s mission, or partial funding of a larger project.

The monetary value of each grant awarded will depend on the number and merit of the proposals received. Grants will be awarded in two increments with the first half being given on the date indicated on the return postcard and the remaining balance to be awarded after grant guidelines have been met, usually in the fall. All funds must be requested within 6 months of being awarded the grant. The grants are announced at the Jefferson County Farm Technology Day’s December 2019 Executive Board meeting.

All grant applications submitted will be reviewed by the Jefferson County Farm Technology Days’ Executive Board Officer team and recommendations forwarded to the full Executive Board for approval at the December Board meeting. A majority vote from the Executive Board attending a regular meeting will be needed to approve funding for grants.

The deadline for submitting proposals is Monday, Dec. 2nd, 2019. Proposals submitted at a later date may be considered by membership at a later date. Applications must be emailed to jeffcoftd2019@gmail.com.

Jefferson County FTD requests that organizations benefiting from the grant money must provide a final report on the project and include Jefferson County Farm Technology Days as a monetary partner in all publicity releases.

A copy of the application is attached.
