

2011 Show is nearly ready at 2:00 pm Monday

Preparations for the 2011 show in Marathon County are nearing an end as the volunteers and others put the final touches on tent city. All the tents are erected and in their final readiness for tomorrow, Tuesday. Although more than one inch of rain fell early today, the ground is drying extremely well and is expected to be in excellent condition for opening day of the 2011 show. With a few hours of work, the show grounds and exhibitors are ready for an excellent opening.

A view of the south side of Tent City Monday afternoon.

Food Tent 5 was open on Monday, July 11, for volunteers and exhibitors. The operation of this food tent on Monday served as opportunity to insure operation will be successful during the show.
