

Second Day Scenes

Wednesday is another excellent day at Wisconsin Farm Technology Days. Weather conditions were nearly perfect; sunny and cool. The number of visitors appears to be larger today and traffic flow into parking went well. Visitor traffic throughout tent city was excellent. Below are two photos showing visitors in one tent and a street scene.

Inside Agribusiness A and B, the largest tent, 80 by 120 feet.

Sixth Street scene from the north end on Wednesday morning.

Seventh Street scene from the North end on Wednesday
