

Wisconsin Farm Technology Days July 7, 2011

Setup for Wisconsin Farm Technology Days is going extremely well after the wind damage that occurred July 1. Today many of the replacement tents arrived and the four remaining replacement tents will arrive Friday morning. Nearly all the replacement tents will be erected by the end of the day Friday. The electrical and wireless services will be established shortly after the tents are erected.

Erection of these tents is progressing extremely well. The Family Living Tent has been erected as well as a large Agribusiness tent. Both were replacement tents. Activity at the unloading dock was very high. Many machinery exhibits are nearly complete and more than ten buildings have been constructed.

Marathon County volunteers, electrician, exhibitors, and tent providers are spending long hours and working hard. The show site will be ready to start on Tuesday, July 12.

See four photos below.

The replacement Family Living Tent was erected on July 7, Thursday.

A replacement Agribusiness was erected on July 7, Thursday.

Many trucks loaded with machinery arrived at the loading dock on Thursday, July 7..

A machinery exhibit is near completion on July 7, Thursday.
